A mother reveals how she earns £1000 every working day from home, after her online trading platform is valued at £10 million! The GCC bus industry is expected to grow at an annual compound growth (CAGR) of 3. 6% by 2025. Industry sales have been severely affected by the recession caused by falling oil prices due to the OPEC deal.New York, January 11, 2021 (GLOBE NEWSWIRE) -- Reportlinker.com releases a report on fierce competition between vendors and distributors of the reshaping of the GCC GCC announces bus industry - Aside from this, the COVID-19 pandemic has a major impact on GCC bus industry sales, which are estimated to decline by 19% in 2020. The expected retreat of the GCC government's infrastructure development projects in Q2/Q3 2021 and government initiatives to diversify economies and investments in non-oil reforms will help the GCC bus industry gain momentum in the next 3 to 4 years The trend expected to fuel demand for new buses includes: increased urbanization; The government's focus is on increasing public transport infrastructure in line with the 2030 national vision to make the GCC a world-class tourist destination; enforcing emissions regulations; deploying integrated and multi-medal transport practices; implementing on-demand responsive transport systems; increasing approval of autonomous, driverless shuttles in the public transport fleet by relevant transport authorities; increasing digital influence; and increasing telematics acceptance and connected vehicles. The study covers the medium and heavy bus market in GCC countries (Kingdom of Saudi Arabia, Kuwait, United Arab Emirates, Oman, Qatar, and Bahrain), including the program's specific bus sector (school, staff and workforce, transit, and coach) sales volumes, both historic and forecast by 2025. 2. The main purpose of this study: • Providing a strategic overview of the GCC bus industry, including key trends and opportunities and emerging mega-shaping of its future • Now read the market size and forecasts of the medium and heavy bus industry Full Report: About Reportlinker ReportLinker is an award-winning market research solution. Hasharon Israel Hood, Jan. 11, 2021 (GLOBE NEWSWIRE) -- ALLOT Ltd. (NASDAQ: ALLT) (TASE: ALLT), a leading global provider of innovative network intelligence and security-as-a-service (SECaaS) solutions for communication service providers and enterprises, announced today that a new mass-market cybersecurity solution, Allot DNS Secure, will join the Allot Secure family of cybersecurity solutions for service providers (CSPs). The new solution is supported by an agreement with Open-Xchange to license its OX PowerDNS technology, which will be integrated into Allot DNS Secure. DNS Secure is designed for CSPs who want to deploy a security solution primarily for fixed broadband subscribers. It provides protection against a wide range of cyber threats including malware and phishing and offers content filtering. It is deployed with a light touch on the CSP network either as an independent solution or along with other solutions in the Allot Family Secure, such as HomeSecure, NetworkSecure and EndpointSecure. PowerDNS OX technology complements Allot's comprehensive threat database and unique proxy capabilities, such as carrier grade performance; multi-protocol implementation and scalability of up to millions of subscribers. As a Cyber security solution, secure DNS enables the user to effortlessly processor, eliminate the need for subscribers to download, install or update any software. Building its new network-based cybersecurity solution on the OX PowerDNS platform will allow Allot to provide quick, comprehensive and scalable end-user protection against malware and phishing, along with content filtering options, to customers providing its communications service provider, says Neil Cook, head of powerDNS product at Open-Xchange. This gives Allot the flexibility to address the needs of CSPs who want to provide additional cyber protection measures to their customers, said Mark Shteiman, vice president of product management at Allot. Additional resources:Allot Blog: On-Air Podcast: Us on Twitter: @allot_ltdFollow Us on LinkedIn: About AllotAllot Ltd. (NASDAQ: ALLT, TASE: ALLT) Leading provider of innovative network intelligence and security solutions for service providers and companies around the world, increasing value to our customers. Our solutions are deployed globally for network and app analysis, traffic control and formation, network-based security services, and more. Allot's multi-service platforms are based by more than 500 mobile, fixed and cloud service providers and more than 1,000 companies. Our leading network-based security industry as a service solution gained more than 50% influence with some service providers and is currently used by more than 20 million subscribers globally. Allot. See. Control. Secure.About Open-XchangeOpen-Xchange (OX) is a secure and open communication and administrative efficiency software developer, IMAP server software and DNS solutions. Since 2005, it has partnered with many of the world's largest Internet service providers (ISPs), Telcos and carriers to provide open source email and productivity solutions that include secure storage, file and document management. OX Dovecot is the most popular IMAP server software in the world and OX PowerDNS offers secure DNS services to telco customers and their users around the world. Software developed by Open-Xchange is used by 200 million people globally. Headquartered in Germany, it has offices in Bremen, Cologne, Dortmund, Hamburg, Nuremberg and Olpe, and international offices in Finland, Italy, Japan, the Netherlands and the United States. Dublin, Jan. 11, 2021 (GLOBE NEWSWIRE) -- The Carbon Graphite Market report has been added to ResearchAndMarkets.com's offering. The carbon graphite market is expected to reach \$20.86 billion by 2025, after growing at a CAGR of 5.40% during 2020-2025. Carbon graphite is used as one of the main materials for suspensions in chemical vapor deposition processes (CVD) due to its thermal stability, high electrical conductivity and the ability to form almost any shape. Extrusion graphite is produced in an extrusion process. In contrast to isostatic graphite, extruded graphite has coarse grain size and lower strength but higher thermal and electrical conductivity. The global carbon graphite market has seen significant growth during the forecast period due to the expansion of the industrial sector and the increase in the use of carbon graphite in metallurgical activities. Key Takeaways * Growth in de fail manufacturing industries led to increased demand for carbon graphite. Carbon graphite is used in the production of refractory bricks such as magnesium-carbon refractory bricks (MgO-C), bedding, crippies, and molds for containing molten metals. * Graphite extraction companies are increased graphite production to cater to increased demand for graphene batteries, which is a major growth factor in the graphite carbon market. * The use of underground drones to build 3D (3D) maps for maine designs is gaining popularity in the carbon graphite industry. * Environmental regulations imposed by governments globally to reduce carbon emissions and meet environmental goals proved to be an inhibition of the carbon graphite market. Key topics covered: 1. Carbon Graphite Market - Overview 1.1 Definitions and Amplitude 2. Indonesia's Food and Drug Administration on Monday launched an emergency green light use of the COVID-19 vaccine produced by China-based Sinovac Biotech Ltd, with vaccinations for high-risk groups expected later this week. Conditional vaccinations for healthcare workers and other public servants using the vaccine, called Coronawalk, are expected to begin this week. Based on the data and according to (who's) guidance, Coronawalk has met the requirements for a vaccine license, Penny Lukito, head of Indonesia's Food and Drug Regulatory Agency, told nasdaq A/S January 11, 2021 announcing the number 5/2021 preliminary data on early compensation (prepayance) under S. 24 of the Capital Markets Act, we are the result of the release of preliminary data on early repayments (down payments) on bonds issued by Jyske Realkredit.
